

**IPC-3**

The new IPC-3 computer is equipped with 2GB flash memory. The Operating System, Windows XP Embedded, and West-Com applications are installed on the compact flash drive. All data files are automatically duplicated and stored on the West-Call<sup>®</sup> Data Manager and will be automatically restored upon master replacement. The West-Call<sup>®</sup> IPC-3 is robust and is failsafe unlike most conventional computers. It's an industrial grade, fanless computer that weighs approximately five pounds with mounting wings integrated into the computer case. It runs on an Intel Pentium-M processor running at 1.4 GHZ with 512MB RAM.

- ▶ Robust, rugged design
- ▶ Fanless design
- ▶ No moving parts
- ▶ Weights 5lbs.
- ▶ Intel Pentium Processor
- ▶ Integrated mounting brackets

DESCRIPTION	MODEL NO.
Master Computer	IPC-3

OPTIONS	
TQI for call reporting Feature	/TQI
Battery Back Up and Surge Protection	UPS-1

- To combine features, specify corresponding code letters that begin with a (/) to the end of the model number (i.e., IPC-3/TQI)

**COMPUTER**

Power Supply                    12 VDC External DC Power Adapter  
 Motherboard                   All-In-One Board  
 Processor                     1.4GHz Intel Pentium M  
 Memory                        512 MB RAM  
 Video Card                    Integrated  
 Connectivity                 Two 9-Pin D-Sub Serial Port, One RJ-45 Network Connector, PS/2 Mouse/Keyboard Port, 15-Pin VGA Port, 3 USB on back, 1 USB on front  
 Hard Drive                     OS operates on 2GB Compact Flash  
 Dimensions                   Length: 9-3/8", Width: 5-3/8", Thickness: 2-3/4"  
 Voltage                         90-135 V at 60 Hz; 180-265 V at 50 Hz  
 Weight                         5 lbs.

**OTHER**

Phone                            Mounted on Monitor  
 Keyboard                      84 Keys  
 Cabling                         Category 5 Cable From Master Computer To HUB. West-Call® Special Black Cable From Master Phone to Distribution Panel.
